812-558-****

Summary

As a front-end developer, I see myself as a creative problem solver who uses code to bring ideas to life. I am passionate about user experience and strive to create visually appealing and intuitive interfaces that blend form and function seamlessly.

Education

Web Design & Front-End Development AAS Minneapolis College

2021-2023 Minneapolis, MN

- MPLS-Phi Member

Projects

Personal Portfolio Site

Spring, 2022

- This is a personal and independent project, including designing the logo, choosing fonts, colors, etc... Developed using the responsive Bootstrap framework, including elastic grids, which can adapt to all digital display devices.

Small Business, HoundsCafe Project

Fall, 2023

- On the basis of the previous project, the design style is expanded. The homepage uses a carousel to display, automatically adjusts the page, and displays the content. Responsible for the layout of the homepage in the project, including the design of the header and footer and the design and development of the landing page.

Certifications

- Earn a 4.0 GPA while in school, . Also getting a Pell Grant helped me with my studies.
- Membership in Phi Beta Kappa is for life

References

In addition to being good at the language of coding, I also have an understanding of color science, typography, and web psychology. Photography is a hobby that has been with me for a long time. I have photographed some activities, portrait photography, and can get in touch with graphic design work without barriers. I am proficient in using adobe, MS and other software required for design and development.

Skills

Research

Branding, illustrations, & logo design
User interviews,
Usability testings,
Persona hypothesis,
Competitor analysis,
Photography & Creative direction,
Content Creation,

Design
